Hongrong, March 974, 1894. THE conditions of the agreement concluded between the Eastern Extension, Australasia and China Telegraph Company and Her Rocks, and Kowloon Rock; 11 miles. Majesty's Secretary of State for the Colonies are very fair and equitable. It is only reameans in time of war, the Company should ing the condition of the cable, for it would after bim. then, of course, run the risk of being cut, malgre the fact of its shore ends only touching British territory. It is also only reasonable that all messages despatched on the service either of the Imperial Government or on those of the Governments of the Straits Settlements and Hongkong should be sent at a reduction over the lines of the Company, and the concession made; of one half the rate, is a liberal one on the part of the Company. For such a concession its repairing steamers may well be exempted from payment of port and light dues in Singapore, Labuar, and Houghong. Article 4 is more generally important and interesting than the foregoing, inasmuch as it concedes the practical monopoly to the Eastern Extension Telegraph Company of the telegraphic communication between the Straits Settlements and Hongkong. This concession: is, however, made subject to conditions which: will effectually prevent it becoming a burden; or clog on the colonies mentioned, for Her. Majesty's Government reserves the right, by twelve months' notice, by purchasing the lines having strategic as well as cammercial director of Nawtaundland importance. It was possibly with some such prevision or idea that this clause was inserted, or with an eye to the desirability of obtaining control of the cables in the event of a foreign war. It is of the highest importance that telegraphie communication shall be maintained with the farthest out- Porpoise to date Feb. 1.
